NINGALULU'S Shark Tales

Ningalulu has spotted some humans at Ningaloo Marine Park and prepares for an encounter...

Wow that must be the humans! I heard swimming with them is really fun...

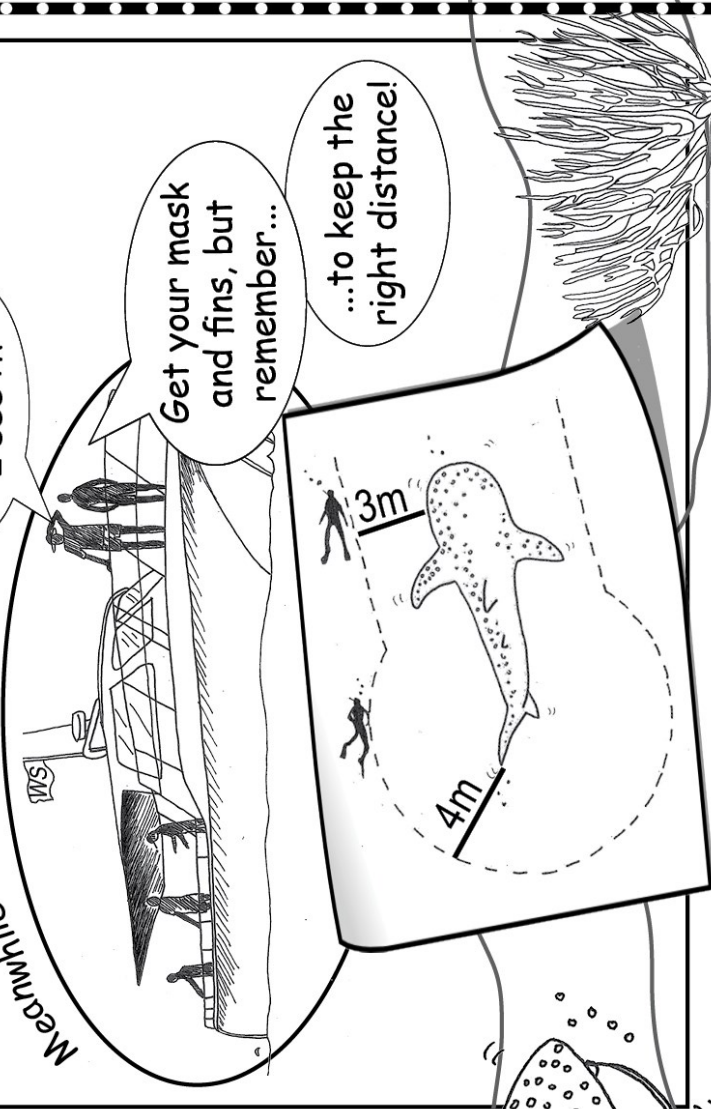

Meanwhile on the surface...

Wow! I see it!

Get your mask and fins, but remember...

...to keep the right distance!

FACTFILE Did you know that when swimming with whale sharks you must stay at least 3 metres away from the body and 4 metres away from the tail!

NINGALULU'S Shark Tales

Ningalulu is out looking for food when...

Hi I'm Molly...
I've never seen you
around here before?

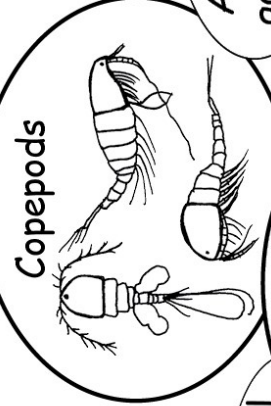

I'm Ningalulu.
Yes, I come here only
when there's
food!

Save some
for me! It's my
favourite food
too!

Anyway got to
go! Chat later...

I love krill
and copepods

Krill

Whoosh!!

FACTFILE Even though whale sharks are the biggest fish in the ocean, they feed on the tiniest creatures. That's why they need a lot of food! Their favourite food is krill.
